CAREER OBJECTIVE

CSE student passionate about Java, Data Structures & Algorithms, Web Development. Experienced in building and optimizing real-world projects, currently enhancing technical expertise in AI and Software Development to create innovative, impactful solutions.

EDUCATION

Bachelor of Engineering in Computer Science

Sri Venkateshwara College of Engineering 2023 – Present

Class XII (Science)

Vidhyadri Pre-University College 2021 – 2023

Class X

Evergreen High School 2020 – 2021

PROJECTS

Virtual Mouse with Dual Hand Gesture Control

Python, Flask, MediaPipe, PyAutoGUI

This uses OpenCV for computer vision, MediaPipe for hand landmark detection, and PyAutoGUI for programmatically controlling mouse actions. By integrating these components, the project successfully maps human hand gestures into cursor movements and mouse actions such as clicking, dragging, and scrolling, thereby offering a fully touchless human-computer interface.

Face Recognition based attendance management system

Python(OpenCV), LBPH, Tkinter

The system uses OpenCV for real-time image capture and facial detection using webcam, and the LBPH (Local Binary Pattern Histogram) algorithm for accurate face recognition. A Tkinter GUI enables easy registration of students by capturing and storing multiple face samples.

SKILLS

Programming Languages Python, Java, JavaScript, Html, CSS, Bootstrap

Frameworks and Tools Flask

Databases MySQL

Domains Web Development, Data Structures, Gen AI, ML

CERTIFICATIONS

Python Fundamentals - Infosys Springboard

Smart India Hackathon - 2024

HackSpark - 2025

ACHIEVEMENTS

NSS participant: Contributed to community welfare programs, skit performances and awareness campaigns under NSS.

AICTE School Outreach Program: Guided government school students on career opportunities, motivating them towards academic and professional growth.
